## Trading Key #14 Unhitching the Poverty Caravan before you unknowingly double your debt

This resource is in two parts the first is about a decree you can read through and ponder on for a bit. Create evidence logs if you feel your issue is deeper and harder to break out of.

There are a lot of key elements that are not mentioned here because they need Holy Spirit individual words of knowledge to express & discern. Suggest you read the second part before you start on the first part.

The second resources is a depiction of how Karyn worked with a women in New Age & ow the entities took a greater hold unknowingly by her and the person. At the time it looked like a miracle but, it was not! Again, more to express & discern with Zoom Q & A being the best place to start a conversation. Not Karyn applied all her learning from Law of Attraction, Laws of the Universe & The book “The Secret”. Again, bigger conversations to be had.

I AM DEMONSTRATTING WHAT NOT TO DO!

THIS IS AN EXAMPLE ON HOW UNKNOWINGLY YOU CAN  
DOUBLE YOUR DEBT WHILE THINKING YOU ARE GETTING FREE

**Trading Key #14 Unhitching the Poverty Caravan before  
you unknowingly double your debt**

In 2016 I had a friend who had a serious situation with finances. To the point they had decided to take their life, in a moment of coincidence we talked, and I got them to come and spend a day with me to see if together we could not work through and find solutions. At that time my friends, felt they had no other option because their other half had no idea of the situation, they had got themselves into.

The first part of this material you are going to view and research material sourced from other mentoring or coaching systems, some you may know of others you may have heard about others you may go NO! I don't want to know because I'm in such a bind already nothing has worked, and I can't handle more ideas I need tangible action with powerful results.

### **Establish Evidence through 32 Trading Keys' Healing Assessment Decrees & Prayers**

To start with I would like you to research your DNA and any origins linked to mythology. Because the ancient tribes across nations will hold a critical key to your breakthrough. Refer to Trading Key #15 for some ideas and directions.

Example & Reason – Caesar may be your “Spirit-World Financial BOND HOLDER”

Now, you may think that's an absurd statement to make. This statement comes from my personal evidence that Holy Spirit gave to me in a vision. At the time I needed interpretations. I was at a public gathering of the Courts of Heaven Public Case & profiling, run by a 40-year veteran deliverance minister who changed her methods from screaming demons to a Lawyer named Jesus Christ of Nazareth. When I asked, she gave me her interpretation, I then sat on that information for 24 hours and then asked for confirmations and that confirmation confirmed revealed the evidence went back 70 GENERATIONS! Not 7 BUT seventy generations.

*Financial issues are extremely micromanaged in the supernatural & it is impossible to explain the entire concept in a paragraph.*

*In essence there are "COUNCILS" that over lay Finances of the World from the 'Spirit World" one that heads these is Montgomery Roth (and he's not a child in the evil realms he is personified in brutality especially in keeping you away from your DNA purpose. & destiny.)*

This material is all about correlating evidence logs. You are building a case file of financial misfortunes across your life, the lives you have connected with throughout your life and most importantly your DNA. Don't worry if the DNA resources are limited. Meaning you don't hold a lot of intel on your genealogy. Do your best and bring the material you have to the Night Court.

Note all your financial evidence down, everything leave nothing out no matter how small or insignificant. I would like to mention do not leave out this topic be it you or someone in your family line that engaged with any of the following services. Evidence Log for those that have ever had a reading; cards, tea leaf, Palm, Mediums / Psychic, Channelling either receiving a message or giving out messages.

Now, back to my friend, when I took the call from this friend who was incredibly upset and feeling very low, full of shame & everything else that goes with any level of financial stress. Through that call I managed to convince them to come and spend the following day with me.

I held faith that we could move something but what that looked like I had no idea. They agreed and in the following pages you will have a glimpse of what we did.

Please note this material in Trading Key 14 is an example, for the purpose of sharing the difference between man fixing & God fixing.

I set about that night to put together a program between everything I had learnt from all the gurus I had spent thousands of dollars trying to fix my own situation. Along with the business skills & entrepreneurial skills I had accumulated along the way.

For me I never denied my friends situation, I never denied the seriousness nor the heartache, I understood by parts of my own life what this looked like and what it feels like.

What I am sharing in this part of the Financial Restoration is a process that will take you through an understanding of how far some need to go to see positive life changing results. This specific key is not a system composed to fix everything right away, instead what it will do is open your eyes to ways and tactics to combat future situations cropping up. Make this work your own, make it work for you and your DNA. For there is a vast difference in everybody's situation, but all will have a common perpetrator that is mostly unknown or not acknowledge by humanity.

Once you start to get the feel of evidence log tracking & tracing you will start to see how the Holy Spirit is working with you even though you may not believe in the Trinity. God knows your heart, he does not measure you, the other "PUNK Fallen Angel" does measure you. Holy Spirit gifts knowledge or words of wisdom that translate into miracles Holy Spirit gift evidence to find the origin or pathways of & into the "needle in the haystack" evidence.

So, you can go ahead a map a decree set out so personalised that it will not make sense to another person. Its critical to know what part of the mess, stress, confusion, shame, fear, guilt is yours & what part is others & what part is your DNA (*remember governance big business, Illuminati, Freemason, Cabal, OWO all falls under the "others"*). This Trading Key has a 4-step process of information that will require homework. That homework

will be ongoing. Remember don't be in a rush to get this sorted, timing is everything in the spirit they want you to be stressed and under the pump! Don't let them do that to your physical through manipulating your SOUL (mind, will, emotions) and trust when this gets unveiled you will be put into a place of full authority & power over your financial repositioning.

### Meaning to “Poverty Caravan”

The first time Karyn witnessed this image in the spirit it was around a situation for herself then when it came up again for a case in a different version, she realised this was related to a generational action.

Example: If your family went to church and was not a tither then this would be used against you in the spirit, through another doorway opened by past generations, that in turn established your Akashic Records.

Example: If you had a family member that stole from a church or an employer then that's another version.

Poverty Caravan is an ancient curse in the DNA, generationally. Does not mean you need to carry the ‘Baggage’ any longer!

However, it does mean you need to work collaboratively. To untangle some, it can be 70 generations BACK!

Example of hidden agendas can go back to Montagues Shadow Board of Governance - Yet he is not 70 generations back? The key is to apply wisdom & discernment within the process.

Our goal is to assist you, to clearly answer situations of physical difficulty that have plagued some bloodlines for generations. This is a sample profile scenario that you are working through. It's in no means set in concrete, but it will un-veil a few hidden blocks to lost treasures.

Think about this? How do you wipe out interest in your heart on debt before the income shows up?

Why do we need to forgive & what does this do to our "soul"?

What does purging our soul have to do with healing finances?

How does blessing after forgiving change things?

*Camels in ancient times were a statement of nobility & wealth. Inside this material I have shared the supernatural experience to reflect the reality to some peoples walk. This is no way represents everyone with financial issues, it is one of many but is a prominent image I have witnessed in the supernatural. For in to days terms if you are always moving house, never settled then this also can mean that you are linked to ancient gypsy curses. They were seasonal workers and moved a lot to find work and need to have mobile housing.*

**Meaning to "Domed" Finance & Declined because of Bad Credit**

This photo is more pleasant than harmful when we look at it in the physical picture, because it is a bit impossible to achieve, but have you considered this is what your “SOUL” looks like with finances in the “Spirit World” !

This scenario can mean either you are under a dome, or they are! This happens more so in a marriage where financial principles are not transparent. Same goes for any business, especially partnerships.

In any situation that money is owed to you by others then the one way to fasten the track and unblock the blockage is to pray for them for breakthrough in their lives. (*This is the forgiveness & blessing fast track into recompense*) Sometime money owed can be the lenders curse not the borrowers curse, but the lenders curse can be added unto you!

Inside the domed image, one or all may resonate with parts of your financial life or a specific person or scenario inside your DNA. If that is the case, then start establishing your evidence logs. Tile each scenario and pop a story line on the reverse side as a reference. Anything big or small that you may feel has impacted your situation.

Add in situations like never getting a job! Never being recognised at sports! Overlooked for promotions at work. Never invited to join certain groups of friends at special events! Relationship doming is another financial based stronghold. Like Ex-business Partners, Family Business gone wrong, Un-Fair Inheritances etc.

As you establish evidence remember you will be adding into the info so make them clearly dated and scenario key points not story but bullet points. Context, make it simple, even two or three words, names dates or places, enough to jog your memory for Q & A session and remember it takes time to establish a court case and then more time to set a court date! To be heard! That's why you need to make evidence log for future trial dates.

Keep adding evidence logs because on the Trial Day The Holy Spirit will

1) continually add new information (you need to be alert to signs, music, people, places, conversations etc that speak a better word that offers up a clue)

2) prompt & remind you of silly or insignificant past situations.

3) The Spirit World will do everything to fog or remove your train of thought! Do not ignore the smallest detail given when you are driving or completely not thinking about your case file. Make a note on your phone voice note. The smallest is sometime the greatest breakthrough Key!

Seven years into my research, one important financial fact I have found is to spend time in a relationship with God's word, build a faith inside YOU!

Don't let other dictate you're understanding instead research and cross reference before you have many face to face conversations.

I am ever so grateful that God send two men of God into my life and the lives of those I exposed the truth to or those that went by faith into the heavenly courts and "FELT" the presence and experience the life results of Gods faithfulness in healing.

What I am saying is it was around a month ago that the Holy Spirit expressed about "UNFULFILLED AGREEMENT"

These are contract templates that Satanic forces in the spirit-world uses against humanity and their human agents. (more on that topic in level 2 & 3).

My physical change keep coming but stopping and when I finally worked out MY COVENANT with GOD regarding each facet of my life example

Health Cove neat

Wellbeing Covenant (Mind & Emotions)

Finance Covenant

My life took an amazing turn. In saying this I never took the direct route to obtain financial stability, but I eventually go they're with his help not on my own understanding.

Has it been hard YES!

Has it been worth the trials YES!

Do I want to go through it again NO!

Therefore covenant & thresholds are everything to both Good & Evil.

The following is an Earthly SYSTEM that worked on paper, while hosting other side effects. Like health issues replace financial issues. You see sometime the enemy of the human soul will have you out of one situation and lead you into another that will bind your ability to earn. Understanding all of this will change your perception for which are good options and which option you should know to stay away from.

### **A quick testimony | Golden Temple Deposits | Indian man's word given**

Hold Spirit share the number of times this man had gone to a shrine / temple and made an agreement with the gods' Every time he visited his agreement went into this status in the spirit-world.

He will work 6 weeks to earn 1 week's wages! He was yoked to a loaded hay cart, he was self-pulling that cart of hay, he had no OX or horse pulling, it was just him, his little body hauling the load (*weight of the family, filled with honour, this also represents finding the curse is like a needle in a haystack*) .

A tug of war, between beliefs in the supernatural all for soul harvesting in the supernatural not for just NOW but most importantly for eternity. This man had a army general-demon who was garnished with medals. This entity / army general had been allocated to his DNA; it was inherited curse.

The what to do is easy; the hard part for many is understanding who fixes this common misunderstood reason / situation and who opened the spirit-world do, and why has it hit this man and not the entire family? Where or who will it fall on in the next generation.

All demi-gods & goddesses worshipping carry supernatural consequences, which create invisible (*to some*) effigies in the spirit world. They then lay-claim to your soul & spirit for eternity (*knowingly or unknowingly*) they become your middle management through-out the duration of your physical life, until you learn their purpose and at that time everything changes and get rather interesting, for a battle of the worlds begins and you need some “SMART” tools to help you through this.

NON in the supernatural are nice, all have alternative motives, discernment is through experience & experience is not through ignorance but is through learning. Understand one fact one LAW! If you love your little gods & goddesses then the CREATOUR respects your FREE WILL choice! However, if you choose to come to him, he will teach knowledge by spending time with him & by researching who he truly is in your life. First thing to do is work out who's voice are you listening to in the spirit-world! Once you know several KEY points then your awareness is sharpened, like a double-edged sword in the spirit.
