Prophetic Words | Please resurch & review your findings

The word 'bruise' is a weak word because we experience bruises all the time. So what's the big deal with a bruise?

But in the Hebrew language, the word we translate in the English as bruise, is a word that means crushed. It implies a deep contusion. This is not merely a break in the skin externally, but rather a break internally that has injured or destroyed a vital internal organ. Bruised means to be "crushed" and it speaks to the terrible, even horrible, scars upon one's heart. Circumstances that have crushed someone; a heart that is bruised to the degree that there is no pill or medicine that can bring healing. This term "bruised" or "crushed" is a perfect description of those who were sexually molested, or physically abused, or both as children. I believe I can say that presently sexual molestation and physical abuse of children is an epidemic not only here in America but abroad as well. The physical, mental, and emotional scarring of a child that is abused can become a living Hell for those victims as they become adults.

Moses himself is far from passive or reticent, yet he represents a prototype of the biblical hero whose greatness lies not in self-assertion but in obedience to God. Moses is a compelling figure because he possesses human faults. He is passionate and impulsive. Descending from Mount Sinai, Moses knows ahead of time that the people are worshipping a golden idol, because God has warned him of this fact. Upon seeing the people, Moses angrily breaks the stone tablets inscribed with God's laws. God seems to value this passionate quality in Moses, for Moses is an effective mediator between God and the Israelites. He prays with a sense of urgency, unafraid to ask God to refrain from divine retribution and willing to accept the blame for the people's actions. His earnest attention to the present situation and to God's demands earns Moses the opportunity to speak with God face to face. Yet his passion remains his weakness. God commands Moses to produce water from a rock by speaking to it, but irritated with the people's complaints, Moses hits the rock with his staff. This act of negligence bars Moses from entering the

very promised land to which he has guided the Israelites for almost half a century.
